Novell Software License Agreement

PLEASE READ THIS AGREEMENT CAREFULLY. BY INSTALLING, DOWNLOADING OR OTHERWISE USING THE SOFTWARE, YOU AGREE TO THE TERMS OF THIS AGREEMENT. IF YOU DO NOT AGREE WITH THESE TERMS, DO NOT DOWNLOAD, INSTALL OR USE THE SOFTWARE AND, IF APPLICABLE, RETURN THE ENTIRE UNUSED PACKAGE TO THE RESELLER WITH YOUR RECEIPT FOR A REFUND. THE SOFTWARE MAY NOT BE SOLD, TRANSFERRED, OR FURTHER DISTRIBUTED EXCEPT AS AUTHORIZED BY NOVELL.

This Novell Software License Agreement (“Agreement”) is a legal agreement between You (an entity or a person) and Novell, Inc. (“Novell”). The software product identified in the title of this Agreement for which You have acquired licenses, any media and accompanying documentation (collectively the “Software”) is protected by the copyright laws and treaties of the United States (“U.S.”) and other countries and is subject to the terms of this Agreement. Any update or support release to the Software that You may download or receive that is not accompanied by a license agreement expressly superseding this Agreement is Software and governed by this Agreement. If the Software is an update or support release, then You must have validly licensed the version and quantity of the Software being updated or supported in order to install or use the update or support release.

The Software may include or be bundled with other software programs licensed under different terms and/or licensed by a licensor other than Novell. Use of any software programs accompanied by a separate license agreement is governed by that separate license agreement. Any third party software that may be provided with the Software is included for use at Your option.

LICENSED USE

Please see the Product Usage Rights in Appendix A for all Novell Operations Center products. Please see the Product Usage Rights in Appendix B for the NetIQ AppManager Operations Portal product.

Evaluation License. If the Software is an evaluation version or is provided to You for evaluation purposes, then Your license to use the Software is limited solely to internal evaluation purposes and in accordance with the terms of the evaluation offering under which You received the Software and expires 90 days from installation (or such other period as may be indicated within the Software). Upon expiration of the evaluation period, You must discontinue use of the Software, return to an original state any actions performed by the Software, and delete the Software entirely from Your system. The Software may contain an automatic disabling mechanism that prevents its use after a certain period of time, so You should back up Your system and take other measures to prevent any loss of files or data.

RESTRICTIONS

License Restrictions. Novell reserves all rights not expressly granted to You. The Software is licensed for Your internal use only. You may not (1) reverse engineer, decompile, or disassemble the Software except and only to the extent it is expressly permitted by applicable law; (2) modify, alter, rent, timeshare host or lease the Software or sublicense any of Your rights under this Agreement; or (3) transfer the Software or Your license rights under this Agreement, in whole or in part, without written permission by Novell.

Suite Licenses. If Your license to use the Software is for a suite of products, then for each license only one user may use the products in the suite. The suite license does not allow use of individual products in the suite by multiple users if licensed on a user basis or multiple devices if licensed on a device or server basis.

Upgrade Protection. If You purchased upgrade protection or maintenance under a Novell program for this Software, the upgrade protection or maintenance only entitles You to upgrades of the Software as a whole and does not entitle You to upgrades of any component programs or products bundled with the Software or any individual products included in a suite if the Software is licensed as a suite of products. You may separately purchase upgrade protection for individual components of the Software if permitted by the applicable Novell policies and programs.

Upgrade Software. This section applies to You if You have purchased the Software based upon upgrade pricing. “Original Product” means the product from which You are upgrading. You are authorized to use the Software only if You are the authorized user of the Original Product and You meet the following conditions: (1) You have acquired the right to use the Software solely to replace the Original Product that You acquired legally and that is qualified to be upgraded with the Software under the Novell policies existing at the time You acquired the Software; (2) You installed and used the Original Product in accordance with the terms and conditions of the applicable license agreement; and (3) You will not sell or otherwise transfer possession of the Original Product.

Support. Novell has no obligation to provide support unless You purchase an offering that expressly includes support services. If You make such a purchase and no separate agreement specifically applies to the support services, then the terms of this Agreement will govern the provision of such support services (“Services”). For more information on Novell’s current support offerings, see <http://www.novell.com/support>.

OWNERSHIP

No title to or ownership of the Software is transferred to You. Novell and/or its licensors retain all right, title and interest in and to all intellectual property rights in the Software and Services, including any adaptations or copies thereof. You acquire only a conditional license to use the Software.

LIMITED WARRANTY

For ninety (90) days from Your date of purchase, Novell warrants that (1) any media on which the Software is delivered is free from physical defects; and (2) the Software will substantially conform to the documentation accompanying the Software. If the defective items are returned to Novell or if You report the nonconformity to Novell within ninety (90) days from the date of purchase, Novell will at its sole discretion either resolve the nonconformity or refund the license fees You paid for the Software. Any unauthorized use or modification to the Software voids this warranty. THE FOREGOING WARRANTY IS YOUR SOLE AND EXCLUSIVE REMEDY AND IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED. (The foregoing warranty does not apply to Software provided free of charge. SUCH SOFTWARE IS PROVIDED "AS IS" WITHOUT ANY WARRANTIES OF ANY KIND.)

Services. Novell warrants that any Services purchased will be supplied in a professional manner in accordance with generally accepted industry standards. This warranty will be effective for ninety (90) days following delivery of the Services. Upon any breach of this warranty, Novell's only obligation is to either correct the Services so that they comply with this warranty or at its option refund the amount You paid to Novell for the portion of the Services that fail to comply with this warranty. As files may be altered or damaged in the course of Novell providing technical services, You agree to take appropriate measures to isolate and back up Your systems.

THE SOFTWARE IS NOT DESIGNED, MANUFACTURED OR INTENDED FOR USE OR DISTRIBUTION WITH ON-LINE CONTROL EQUIPMENT IN HAZARDOUS ENVIRONMENTS REQUIRING FAIL-SAFE PERFORMANCE, SUCH AS IN THE OPERATION OF NUCLEAR FACILITIES, AIRCRAFT NAVIGATION, COMMUNICATION, OR CONTROL SYSTEMS, DIRECT LIFE SUPPORT MACHINES, WEAPONS SYSTEMS, OR OTHER USES IN WHICH FAILURE OF THE SOFTWARE COULD LEAD DIRECTLY TO DEATH, PERSONAL INJURY, OR SEVERE PHYSICAL OR ENVIRONMENTAL DAMAGE.

THE SOFTWARE IS ONLY COMPATIBLE WITH CERTAIN COMPUTERS AND OPERATING SYSTEMS. THE SOFTWARE IS NOT WARRANTED FOR NON-COMPATIBLE SYSTEMS. Call Novell or Your reseller for information about compatibility.

Non-Novell Products. The Software may include or be bundled with hardware or other software programs or services licensed or sold by an entity other than Novell. NOVELL DOES NOT WARRANT NON-NOVELL PRODUCTS OR SERVICES. ANY SUCH PRODUCTS OR SERVICES ARE PROVIDED ON AN "AS IS" BASIS. WARRANTY SERVICE IF ANY FOR NON-NOVELL PRODUCTS IS PROVIDED BY THE PRODUCT LICENSOR IN ACCORDANCE WITH THE APPLICABLE LICENSOR WARRANTY.

EXCEPT AS OTHERWISE RESTRICTED BY LAW, NOVELL DISCLAIMS AND EXCLUDES ANY AND ALL IMPLIED WARRANTIES INCLUDING ANY WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE OR NON-INFRINGEMENT. NOVELL MAKES NO WARRANTY, REPRESENTATION OR PROMISE NOT EXPRESSLY SET FORTH IN THIS LIMITED WARRANTY. NOVELL DOES NOT WARRANT THAT THE SOFTWARE OR SERVICES WILL SATISFY YOUR REQUIREMENTS OR THAT THE OPERATION OF THE SOFTWARE OR SERVICES WILL BE UNINTERRUPTED. Some jurisdictions do not allow certain disclaimers and limitations of warranties, so portions of the above limitations may not apply to You. This limited warranty gives You specific rights and You may also have other rights which vary by state or jurisdiction.

LIMITATION OF LIABILITY

Consequential Losses. NEITHER NOVELL NOR ANY OF ITS LICENSORS, SUBSIDIARIES, OR EMPLOYEES WILL IN ANY CASE BE LIABLE FOR ANY SPECIAL, INCIDENTAL, CONSEQUENTIAL, INDIRECT, TORT, ECONOMIC OR PUNITIVE DAMAGES ARISING OUT OF THE USE OF OR INABILITY TO USE THE SOFTWARE OR SERVICES, INCLUDING WITHOUT LIMITATION LOSS OF PROFITS, BUSINESS OR DATA, EVEN IF ADVISED OF THE POSSIBILITY OF THOSE DAMAGES.

Direct Damages. IN NO EVENT WILL NOVELL'S AGGREGATE LIABILITY FOR DIRECT DAMAGES TO PROPERTY OR PERSON (WHETHER IN ONE INSTANCE OR A SERIES OF INSTANCES) EXCEED 1.25 TIMES THE AMOUNT PAID BY YOU FOR THE SOFTWARE OR SERVICES OUT OF WHICH SUCH CLAIM AROSE (OR \$50 (U.S.) IF YOU RECEIVED THE SOFTWARE FREE OF CHARGE). The above exclusions and limitations will not apply to claims relating to death or personal injury. In those jurisdictions that do not allow the exclusion or limitation of damages, Novell's liability shall be limited or excluded to the maximum extent allowed within those jurisdictions.

GENERAL TERMS

Term. This Agreement becomes effective on the date You legally acquire the Software and will automatically terminate if You breach any of its terms. If the Software is provided to You on a subscription basis, then Your right to possess or use the Software will terminate at the end of the applicable subscription period. Upon termination of this Agreement or any applicable subscription period, You must destroy the original and all copies of the Software or return them to Novell and delete the Software from Your systems.

Verification. Novell has the right to verify Your compliance with this Agreement. You agree to: keep records relating to the Software products You have installed, copied or used; upon request of Novell, provide Novell with written certification of Your use; and allow a Novell representative to inspect and audit your computers and records for compliance with this Agreement during your normal business hours. You shall fully cooperate with such audit and provide any necessary assistance and access to all records and

computers. If an audit reveals that You have or at any time have had unlicensed installation or use of the Software, you will promptly acquire sufficient licenses to cover any shortage. If a material license shortage of 5% or more is found, You must reimburse Novell for the costs incurred in the audit and acquire the necessary additional licenses within 30 days without benefit of any otherwise applicable discount.

Benchmark Testing. This benchmark testing restriction applies to You if You are a software developer or licensor or if You are performing testing on the Software at the direction of or on behalf of a software developer or licensor. You may not, without Novell's prior written consent not to be unreasonably withheld, publish or disclose to any third party the results of any benchmark test of the Software. If You are a licensor of products that are functionally similar to or compete with the Software ("Similar Products"), or are acting on behalf of such a licensor, and You publish or disclose benchmark information on the Software in violation of this restriction, then notwithstanding anything to the contrary in the Similar Product's end user license agreement, and in addition to any other remedies Novell may have, Novell shall have the right to perform benchmark testing on Similar Products and to disclose and publish that benchmark information and You hereby represent that You have authority to grant such right to Novell.

Open Source. Nothing in this Agreement shall restrict, limit or otherwise affect any rights or obligations You may have, or conditions to which You may be subject, under any applicable open source licenses to any open source code contained in the Software.

Transfer. This Agreement may not be transferred or assigned without the prior written approval of Novell.

Law and Jurisdiction. This Agreement is governed by the laws of the State of Utah, U.S. Any action at law relating to this Agreement may only be brought before the courts of competent jurisdiction of the State of Utah. If, however, Your country of principal residence is a member state of the European Union or the European Free Trade Association, this Agreement is governed by the laws of that country, and any action at law may only be brought before a court of competent jurisdiction of that country.

Entire Agreement. This Agreement sets forth the entire understanding and agreement between You and Novell and may be amended or modified only by a written agreement agreed to by You and an authorized representative of Novell. NO LICENSOR, DISTRIBUTOR, DEALER, RETAILER, RESELLER, SALES PERSON, OR EMPLOYEE IS AUTHORIZED TO MODIFY THIS AGREEMENT OR TO MAKE ANY REPRESENTATION OR PROMISE THAT IS DIFFERENT FROM, OR IN ADDITION TO, THE TERMS OF THIS AGREEMENT.

Waiver. No waiver of any right under this Agreement will be effective unless in writing, signed by a duly authorized representative of the party to be bound. No waiver of any past or present right arising from any breach or failure to perform will be deemed to be a waiver of any future right arising under this Agreement.

Severability. If any provision in this Agreement is invalid or unenforceable, that provision will be construed, limited, modified or, if necessary, severed, to the extent necessary, to eliminate its invalidity or unenforceability, and the other provisions of this Agreement will remain unaffected.

Export Compliance. Any products or technical information provided under this Agreement may be subject to U.S. export controls and the trade laws of other countries. The parties agree to comply with all export control regulations and to obtain any required licenses or classification to export, re-export or import deliverables. The parties agree not to export or re-export to entities on the current U.S. export exclusion lists or to any embargoed or terrorist countries as specified in the U.S. export laws. The parties will not use deliverables for prohibited nuclear, missile, or chemical biological weaponry end uses. Please consult the Bureau of Industry and Security web page www.bis.doc.gov before exporting Novell products from the U.S. Please refer to <http://www.novell.com/company/legal/> for more information on exporting Novell software. Upon request, Novell will provide You specific information regarding applicable restrictions. However, Novell assumes no responsibility for Your failure to obtain any necessary export approvals.

U.S. Government Restricted Rights. Use, duplication, or disclosure by the U.S. Government is subject to the restrictions in FAR 52.227-14 (June 1987) Alternate III (June 1987), FAR 52.227-19 (June 1987), or DFARS 252.227-7013 (b) (3) (Nov 1995), or applicable successor clauses. Contractor/Manufacturer is Novell, Inc., 1800 South Novell Place, Provo, Utah 84606.

Other. The application of the United Nations Convention of Contracts for the International Sale of Goods is expressly excluded.

Appendix A

Novell Operations Center Products

Definitions

"Instance" means the initial copy of the Software necessary for execution of the Software and each additional copy (or partial copy) of the Software stored or loaded in memory or virtual memory.

Commercial Use License. Novell Operations Center Software ("NOC") licensing is based on Your selection of project-based packages or the full NOC capability and requires that You purchase an Instance license for each Instance of the Software. Each Instance license for any of the NOC packages specified in the title of this Agreement includes use of an Instance of the engine software ("Engine Software") as well as the following features and capabilities:

- Novell Integration Modules that integrate NOC Engine Software with other Novell products
- Dashboards with unlimited internal dashboard users
- Service Configuration Manager
- Ten (10) concurrent client connections to the Operator Console

In addition to the above, You are licensed to use those capabilities referenced below for each Instance license You have purchased for the applicable package.

Novell Operations Center for Service Measuring

- One (1) Instance of the Engine Software
- One (1) third party integration module (which allows You to integrate the Instance of the Engine Software with one non-Novell application or system)
- Service Level Manager
- Excludes Event Manager, Experience Manager, and Configuration Management System

Novell Operations Center for Service Mapping

- One (1) Instance of the Engine Software
- One (1) third party integration module license (which allows You to integrate the Engine Software with one non-Novell application or system)
- Configuration Management System
- Excludes Service Level Manager, Event Manager and Experience Manager

Novell Operations Center for Service Monitoring

- One (1) Instance of the Engine Software
- One (1) third party integration module license (which allows You to integrate the Engine Software with one non-Novell application or system)
- Event Manager
- Experience Manager
- Excludes Service Level Manager and Configuration Management System

Novell Operations Center 5.0

- One (1) Instance of the Engine Software
- One (1) Non-Production Use License
- Three (3) third party integration module licenses (which allows You to integrate the Engine Software with three (3) non-Novell applications or systems)
- Event Manager
- Experience Manager
- Service Level Manager
- Configuration Management System

Client Console Connection Licenses. You must have a client console connection license for each concurrent client connection to the Operator Console. Ten client connection licenses are included with each Instance license for the Engine Software. Additional client connections licenses may be purchased separately.

Third Party Module Licenses. You must have a third party module license for each third party application or system that you integrate with each Instance of the Engine Software. Additional third party module licenses may be purchased separately.

Non-Production Use License. If You have purchased a license for non-production use for Your applicable package, You may only install and use the Software in a non-production environment for testing, cold back-up, staging and lab purposes. The Software may not be installed in a production environment or used for production purposes. You must purchase a non-production use license for each Instance of the Software installed or used in a non-production environment. A Non-Production Use License is included with each Instance license for the full capability package of the Novell Operations Center 5.0 Software.

Appendix B NetIQ AppManager Operations Portal

Definitions

"Instance" means the initial copy of the Software necessary for execution of the Software and each additional copy (or partial copy) of the Software stored or loaded in memory or virtual memory.

"Non-Production Use" means right to install and use one Instance of the Software in a non-production environment for testing, cold back-up, staging and lab purposes. The Software may not be installed in a production environment or used for production purposes.

Commercial Use License. Subject to compliance with the terms herein, You are authorized to install and use one Instance of the NetIQ AppManager Operations Portal ("AMOP") Software in connection with Your licensed use of the NetIQ AppManager product ("AppManager"). You are also authorized to install and use one Instance of AMOP for Non-Production Use. NetIQ AppManager licenses are sold separately from AMOP licenses.

Use of the AMOP Software is limited to use solely with the AppManager product. The AMOP Software includes features that are not enabled by the AMOP license key and are not available for Your use. If You desire to use any of these additional features or to deploy more than one Instances of the AMOP Software, please consider purchase of the Novell Operations Center offerings which include these additional features.

In order to use the AMOP Software, You must purchase the following AMOP licenses: (i) a **Server license** for each Server in Your AppManager Deployment; (ii) a **Device license** for each Point Product (other than phones); and (iii) a **Phone license** for each Point Product that constitutes a phone. You must license all Servers and Point Products in your AppManager Deployment. Please see below for AppManager related definitions.

"AppManager Core" means that group of core components including management servers, agents and databases (e.g., QDB, CCDB databases etc.) provided with your purchase of the NetIQ AppManager product.

"AppManager Deployment" refers to the single collective grouping of an AppManager Core unit along with the modules, framework connectors, Point Products and management console(s) that interact with such AppManager Core.

"CPU" means a central processing unit core in a physical server. For clarity, this term will refer to each core on a multi-core processor (sometimes referred to as a socket) as reported by the operating system, which shall be counted as one (1) CPU. With virtualization, each single virtual server needs to be licensed for the number of CPU cores configured for that virtual server.

"Manage" or "Managing" means the ability to provide information or data to, receive information or data about and/or to execute command functions against, either directly, indirectly or remotely.

"Point Product" means a non-AppManager, application or network device such as a phone, switch, router, gateway, or similar devices whether physical or virtualized.

"Server" means a single (whether virtualized or physical non-virtualized) server, Blade Server (as defined below), desktop, network device or machine, each as may be applicable. By way of example, each instance of a virtual machine on a physical server shall count as one (1) server. Blade Server means a single mother board that contains at least one CPU and memory that is installed within a blade chassis designed to support multiple blade servers.
